19-20 GMT

PHYSICAL STRUCTURAL MODELS with **GIULIA BOLLER** and **LUKAS INGOLD**

The material production, physical qualities and collaborative use of structural models are key to understand the modern architectural and engineering project. On December 16 2020 FUNES will talk to Giulia Boller and Lukas Ingold (ETH Zürich) about the authorial, technological, cultural and epistemic dimensions of 20th-century structural model-making.
